

# Installation instructions ASDO package

---

Import the ASDOpackage\_2014-05-19.uel to the Component Catalog in Tekla Structures by open the Catalog and right click -> Import.

Copy the text in the file ComponentCatalogTreeView\_ASDO.txt and paste it in the bottom of the ComponentCatalogTreeView.txt file which is located under the active model catalog -> attributes catalog.

Place the report L\_ASDO\_list.rpt under the actual model folder for the active project or in your internal setup. If you have the Swedish environment installed, the report is already included.
