

Shims, Stål

Beskrivelse:

Stålshims for justering av veggelementer under montasjen. Elementene understøpes etterpå.

Shimsene er tromlet for å unngå grader og skarpe kanter. De leveres pakket i sekker for enkel håndtering på anlegget.

Materiale:

Stål S235J2 eller tilsvarende, ubehandlet

Hardhet HV 200
